Wrapping Up Bingocize North Carolina

We want to thank all of you for making this such a successful program throughout North Carolina. While we await a few more attendance reports, preliminary totals are quite impressive-- thanks to your commitment and hard work!

Total participants over the past three plus years was 2409 residents. You hosted Bingocize sessions with a total of 50,191 attendance units for an average of 12 attending each session!

The success of this grant and program is due to each facility's outstanding leadership. We are aware that you have experienced ownership changes, administration changes, covid and other illnesses in addition to your regular duties.

We are still around, compiling reports and answering questions leaders have about licensing with Bingocize headquarters. We will be available through the end of July to help you with questions that arise. If you have not submitted attendance, please check your email. We have sent several with information about the attendance dates we still need from some of you.

It would be helpful for us if you could find a few minutes to take the leader survey to give us feedback about the program.
